

Paint Formulas

This sheet contains Sherwin-Williams® paint formulas (gallon size) for standard Raynor garage door colors. If you require paint to touch up a Raynor garage door, print this page and take the required formula to your nearest Sherwin-Williams store. Please note, these formulations match new doors. Over time, paint color may fade slightly. Touch up paint is intended to be used for small areas. Color shade differences may be noticeable the larger the area the paint is applied to.

When contacting Sherwin-Williams®, please note the following information that applies to all colors: Interior/Exterior METALATEX (METALATEX is a semi-gloss paint).
