Rolling Counter Shutters

With a proven track record for durability, DuraShutter counter shutters are ideal for retail and commercial facilities, where both appearance and dependability are important.

**Rugged**
Constructed from commercial quality materials, DuraShutter assures a long life cycle and require little to no maintenance, delivering the reliability and durability to meet or exceed the requirements of daily use.

**Versatile**
Designed for a variety of common applications, DuraShutter is available in steel, perforated steel, stainless steel and aluminum curtains, along with a wide variety of quality features and options such as 187 powder coat colors and integral frames.

**Secure**
DuraShutter secures openings above counters and similar finished openings with interlocking roll formed slats with endlocks riveted to ends of alternate slats. With the added protection of cylinder or thumb turn locks you can be certain your building will be safe and secure.

Gray  Stainless Steel  Aluminum

Features

Every DuraShutter counter shutter is built for superior performance and includes the features listed below. For additional options, please see the inside pages.

Curtain Hood
Curtain hoods are square and designed for maximum structural rigidity.

Curtain
All DuraShutter curtains are constructed with heavy-duty steel, stainless steel or aluminum flat slats.

Counterbalance System
A torsion-spring-operated system, enclosed in a structural steel barrel, effectively counterbalances the door for a minimum of 7,500 cycles.

Guides
Guides constructed of steel, stainless steel or aluminum, allow for face or jamb mounting.

Bottom Bar
Curtain bottoms are constructed of steel, aluminum or stainless steel with a foam edge to protect the sill.

Locks
Cylinder or thumb-turn locks help keep your building secure. Thumb-turn locks are standard on shutters with manual or crank operation.
Model Options and Upgrades

187 ArmorBrite™ Colors
Choose your color! Nearly every Raynor rolling door component (curtain slats, bottom bars, guides, hoods and head plates) can be powder coated in any of 187 colors for an attractive appearance and exceptional durability.

Brush Seals
A brush-type guide (shown) or header seal increases energy efficiency.

Integral Frame Options
Offered in built-in and slip-in styles, Raynor integral frame counter shutters provide maximum strength and security with metal frames, shutters and sills that are factory-assembled as a complete unit. Both options are available with manual, crank or motor operation. Each offers a clean appearance and unique advantages, depending on your application needs.

Slip-in Style Frames
For your existing walls, the slip-in style frames are a sleek and easy solution.

Built-in Style Frames
For masonry walls not yet constructed, built-in style frames provide a clean, finished appearance.

Operation Methods

Eclipse™ Tube Motors
Ideal for easy and convenient operation, and concealed inside the barrel assembly, this quiet torque-rated motor runs smoothly at the touch of a button.

ControlHoist™ 2.0 Operations
For larger sized counter shutters, choose a reliable ½ hp ControlHoist™ 2.0 jackshaft operator.

Crank Operation
Hand-crank operation is available on all DuraShutter counter shutters.

MGJ Operator
½ hp, jackshaft operator, perfect for operating counter and smaller sized rolling and grille doors.
